FIRE PRECAUTIONS:

The minimum wall-to-wall or awning distance must be 20ft/6m. Please keep a full bucket of water outside your unit - this will ensure an immediate supply of water should a fire break out anywhere on site.

However, where space is restricted, keep to 20ft to ensure there is room for later arrivals.

Where possible, do not pitch your unit directly in front of another.

Please consult the steward before operating a generator, you may be asked to pitch away from other units.
